Designers' vinyl planks are available in a variety of design, thickness and texture. It is specifically designed to look like real hardwood flooring, and is resistant to water and other kinds of moisture penetration. The vinyl planks have an exceptional heavy duty wear layer which gives the product high resistance to household chemicals, stains and abrasion. Designers' planks also have a finish with a special ultraviolet coating on the top of the plank to protect colour fading and also provide a dust repellent surface for easy maintenance.

Application:

Designers' wooden planks are suited for installation in residences, kitchens, offices, playrooms, commercial areas, public rooms, restaurants, shopping areas, schools, lifts and much more!

Installation:

One of the best things that can be said about Designers' wooden planks is that it is extremely easy to install. Suitable quality adhesive such as Fevicol SR 505 can be used to install the vinyl planks.

Maintenance & Precautions:

No matter how stained or soiled your planks become, plain soap water is enough to make it look as good as new. Since these flooring products are already coated with an ultraviolet protective layer dust retention will be at the minimal. Always ensure that all furniture legs are fitted with floor protectors.

SPECIFICATIONS

ITEM NAME	EVOKE	RIDGE
Total thickness	1.5mm	2.0mm
Wear layer thickness	0.1mm	0.2mm
Size	6' X 36 inchech	6' X 36 inchech
Piece per box	30 pcs	25 pcs
Resistance to fire	NFPA Class B1-S1	NFPA Class B1-81
Slip resistance	R9	R9
Dimension Stability	Shrinkage < = 0.002%, Curing < = 0.2 mm	Shrinkage < = 0.002%, Curing < = 0.2 mm
Residual indentation	Mean value 0.01 mm	Mean value 0.01 mm
Color fastness to light	≤ 6	≤ 6
Resistance to chemicals	Class-0	Class 0
Peeling strength of layers	Pass	Pass
Bearing a castor chair	Pass C	Pass
Toxic	Complies	Complies
